

Introduction to the CreveTope system: Intensive shrimp farming with bioflocs Visit to shrimp farm in Belgium

Date: Wednesday 18 March 2020

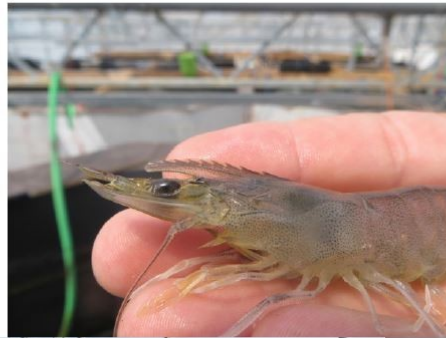

Time: 08:30 till 18:00

Limit: maximum 25 persons – book early to ensure your place

Intro

CreveTec has built a shrimp farm in Ternat, only 15 km from Brussels, more than 100 km from the coast. This farm uses bioflocs to maintain water quality. The farm has a capacity to produce 10 ton of fresh *Litopenaeus vannamei* shrimp per year. All water is continuously and 100 % recycled for more than 5 years already. The farm started operation in April 2015 and is in full operation since September 2015. The farm is also self-sufficient for the production of its own Postlarvae.

Adres of the seminar (and farm):

Heirbaan 56A, 1740 Ternat, Belgium

Program
