Dear sports-friend ,

We would like to introduce to you some new ideas concerning the International Barcelona Club 2000.

We would like to extend our International club of friends.

The main object will be the long distance races St.Vincent 938 km(midday liberation) for the yearlings and Barcelona for the old pigeons.

Some principals :

The youngsters can be sent to the loft in April or May.

They will be trained till a distance of +/- 300km.

The final race for the yearlings (St.Vincent) and the Barcelona race for the old pigeons are held on the same weekend. This is very interesting for those fanciers who travelled a long way to see arrive their pigeons from these races. At the same weekend the youngsters will also have a race.

On Friday afternoon , the liberation-day of Barcelona and St.Vincent there will be hold our traditional party "Fiesta Español". For some years now this became a meeting-point of fanciers from all over the world . All members will be invited to taste the Spanish and Belgian specialities that will be served at this occasion.

Because we cancelled the prize money, the entrance-fee will be much lower than before.

For those fanciers that send yearly youngsters (5 for 500€or 12 for 1000€) their yearlings and old pigeons will be raced free of charge. Those fanciers that don't send youngsters but want to play their yearlings and/or old pigeons pay 100€for each pigeon yearly.

Important is to know that the pigeons always stay for 100% property of the fancier. So they can be taken back after each season.(shipping costs are paid by the fancier)

The tree first positions of each race will get a trophy.

The trainings and other races will be put on the internet.

If you are interested to join this International Club of pigeon-friends just contact us.
